

# A. C. M. LABORATORY PTY. LTD.

NATA Accredited Laboratory No. 723

21 Teton Court, Highett Vic. 3190 Australia Ph: +61 3 9555 0671  
Web: [www.acmlab.com.au](http://www.acmlab.com.au) Email: [sales@acmlab.com.au](mailto:sales@acmlab.com.au)

ACM Laboratory Pty Ltd is a NATA accredited calibration laboratory since 1968 that conducts calibration on Dimensional, Temperature and Humidity, Torque and Force, and Electrical instruments. We are looking for a hard-working Calibration Technician/Engineer to join our busy team in Highett Vic.

## Responsibilities:

- Perform instruments calibration and maintenance in accordance with laboratory work instructions and testing methods.
- Calibration of a broad range of instruments:
  - Dimensional metrology instruments, e.g. callipers, micrometers, gauge blocks etc.
  - Temperature instruments, e.g. thermometers, RTD/PRT, thermocouples, temperature indicators, transmitters etc.
  - Torque and Force instruments, e.g. torque wrenches, force gauges etc.
  - Weighing instruments, e.g. masses, balances, load cells etc.
  - Electrical testing instruments, e.g. digital multimeters, insulation testers, clamp meters, etc. Have a good understanding of electrical principles and applications.
  - Pressure gauges.
- Maintain a high quality testing system to NATA accreditation standard.
- Maintaining a high degree of customer satisfactory.
- Perform other duties as requested by Lab Manager.

## Requirements:

- Certificate or Diploma in applied physics, mechanical and electronic technology (Desirable).
- Previous experience in a relative calibration laboratory environment is preferred.
- Previous experience in multimeters, clamp meters, load cell and force testing machines calibration is desirable.
- Excellent time management skills with an ability to effectively plan and prioritise.
- Capability to perform calibration according to the instructions, keen to learning new knowledge is essential.
- Understanding of calibration and testing techniques.
- Understanding of laboratory QA/QC criteria and NATA accreditation requirements.
- Self-motivated; able to work overtime; have strong focus on quality and safety and be able to work as part of an effective team.
- Ensure prompt and accurate test results are presented, both written and oral.
- Able to work at customer's site and have good communication skills.
- Must be an Australian citizen or a permanent resident.
